¹ (b) Under this section, information is material to patentability when it is not cumulative to information already of record or
being made of record in the application, and

(2) It refutes, or is inconsistent with, a position the applicant takes in:

(i) Opposing an argument of unpatentability relied on by the Office, or

(ii) Asserting an argument of patentability

A *prima facie* case of unpatentability is established when the information compels a conclusion that a claim is
unpatentable under the preponderance of evidence, burden-of-proof standard, giving each term in the claim its broadest reasonable construction
consistent with the specification, and before any consideration is given to evidence which may be submitted in an attempt to establish a contrary
conclusion of patentability

and have also identified below any foreign application for patent or inventor's certificate having a filing date before that of the above listed application on which priority is claimed:
